Grass-fed Beef

Available for pickup Early August, 2011.

We sell by the whole or half. The beef is vacuum-sealed in a non-latex material, individually labeled...ready for your freezer. Any variation from the normal cut (see chart below) will require a nominal fee. The young cattle are bred, born and raised on our grass. We sell lean, chemical-free beef. Steroids, artificial growth hormones or antibiotics are never used. If an animal requires medication, it is simply removed from our beef program and sold at auction. We keep a health record on each individual animal.

\$7.00 Lb.

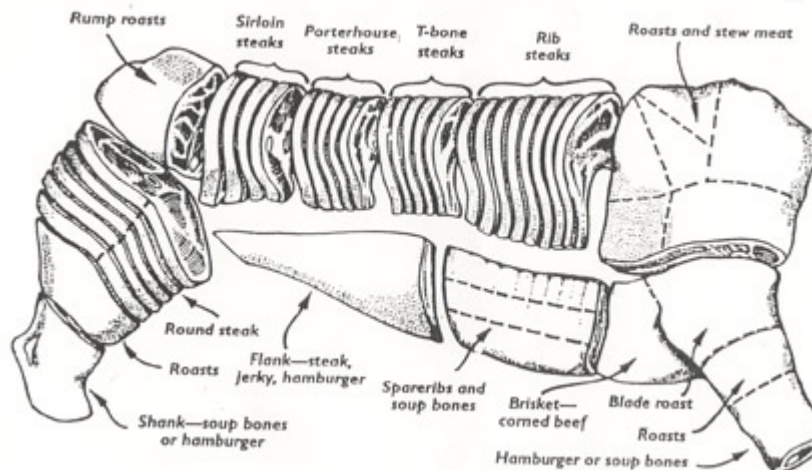

The average will be 130-170 pounds per side.

Deposit \$100.00*

Balance due when picked up at the processor.

We must receive your deposit by Friday, July 1, 2011. Once we have received your deposit, we will contact you with the name and address of the USDA inspected processor where you will pick up your order and the date the order will be ready. We expect processing to be in early August.

Visit us at berrycreekfarm.us or call 405-485-9105 for more information.

*Deposit is non-refundable, but transferable
